## Education

**Dr. APJ Abdul Kalam Technical University**

**Lucknow, Uttar Pradesh**

*B.Tech – Computer Science Engineering | AI & ML Specialization*

*Aug 2022 – May 2026*

## Technical Skills

**Languages:** Java, JavaScript (ES6+), TypeScript, C

**Frontend:** React.js, Next.js, Redux Toolkit, HTML5, CSS3, SCSS, Tailwind CSS, EJS, Responsive Design

**Backend:** Node.js, Express.js, REST API, Passport.js, OAuth 2.0, JWT, bcrypt, Rate Limiting, Cron Jobs

**Databases:** MongoDB, Mongoose, PostgreSQL, Prisma ORM

**Cloud & Tools:** Git, GitHub, Cloudinary, Stripe, Render, Vercel, Postman, VS Code, IntelliJ IDEA

**Core CS:** Data Structures & Algorithms (DSA), DBMS, Operating Systems, Computer Networks, OOP

## Projects

**Food Ordering Application** 🔗 | React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Passport.js, Stripe **2025**

- Architected end-to-end user authentication with Passport.js supporting Google OAuth 2.0 and session-based login
- Built role-based Admin Panel with 5 access levels managing 200+ users, 50+ menu items, and 100+ live orders
- Engineered 15+ REST API endpoints with Express.js, Axios, and Redux Toolkit for centralized state management
- Integrated Cloudinary CDN, Stripe payment gateway, and bcrypt with HttpOnly cookies for API security
- Delivered responsive UI with toast notifications and form validation tested across mobile, tablet, and desktop

**Apni IssueTracker** 🔗 | Next.js, TypeScript, MongoDB, Prisma ORM, REST API **2025**

- Developed full-stack issue tracking system with 12+ REST APIs for creation, update, priority assignment, and resolution
- Implemented soft delete, 30-day restore window, and immutable audit logs ensuring 100% data traceability
- Engineered optimistic locking to handle concurrent updates, preventing data conflicts across 5+ simultaneous users
- Configured SLA tracking for 4 priority levels with automated escalation via cron jobs running every 5 minutes
- Applied rate limiting (60 req/15 min), Prisma schema validation, and async email notifications for security

**Password Generator** 🔗 | React.js, JavaScript (ES6+), Tailwind CSS **2025**

- Built customizable password generator with 4 parameters: length 1–128 chars, numbers, symbols, uppercase toggle
- Leveraged React Hooks (useState, useEffect, useCallback, useRef) for state management and render optimization
- Implemented one-click clipboard copy with success feedback via navigator.clipboard API
- Crafted accessible, responsive UI with Tailwind CSS tested on 3+ device sizes with WCAG 2.1 compliance

## Competitive Programming & Certifications

**TCS CodeVita Season 12 – Global Rank 7,215 | Top 10% among 50,000+ participants** **2024**

- Solved 2 advanced algorithmic problems under time constraints in a 5-hour competitive programming contest

**C Programming Competition – Tech Buzz 2024 | Ranked 10th out of 150 participants** **2024**

- Demonstrated strong low-level programming and DSA skills in a college-level competitive programming event

## Coding Platforms

- **LeetCode:** 150+ problems solved (medium & hard) – Arrays, Trees, Graphs, Dynamic Programming, Backtracking
- **GeeksforGeeks:** Active contributor in Data Structures, Algorithms, and Competitive Programming
- **HackerRank:** Skill assessments completed in Java and SQL; active in algorithm challenges
